RFID SDK for Xamarin (iOS) v1.0 *June 2020*

Contents	1
Overview	1
Device Compatibility	1
Version History	2
Components	2
Installation	2

Overview

Zebra RFID SDK for Xamarin enables a developer to build native applications to connect and control Zebra Barcode scanners over a Bluetooth connection (no cradle involved) on iOS devices from a single, shared C# codebase.

Functionality,

1. Discover, connect and disconnect readers
2. Perform basic inventory (start, stop inventory with relevant notifications)
3. Barcode reading

Device Compatibility

For the compatible devices list, please visit following page.

<https://www.zebra.com/us/en/support-downloads/software/developer-tools/xamarin-wrapper-for-rfid-sdk-for-android-and-ios.html>
