Fixes in this Release

- N/A

What's New in this Release

- Initial release

Installation and Configuration Instructions

To install the Ethernet Driver 12.17.10.7 update, perform the following steps:

1. Download the update and save to the directory location of your choice.
2. Unzip the file to a location on your local drive.
3. Right-click the installer (LAN_install.cmd) and select 'Run as administrator'.
4. The update process completes quickly with no additional user action.

Licensing

Refer to your applicable end-user licensing agreement for usage terms.
