

MC18 Applications Guide

Region		Platform	Description	Verticals	Zebra	Program	
EMEA	Ingenica Solutions Ltd	Atticus Healthcare Mobility	Android	The Atticus Mobility Solution was designed to offer a Point of Use alternative to Ingenica’s Warehouse Management System. The current application and hardware option was designed as a warehouse solution around rugged enterprise mobile computers.	Healthcare	MC18	Zebra Enterprise Validated
NA	Optical Phusion; Inc	Loss Prevention	CE	OPI’s integrated solution combines the MC18 with passive RFID technology and software from OPI. Under this design, an RFID chip is installed in each MC18. This allows the alarm to be sounded if the device is taken outside the designated area of use.	Retail	MC18	Zebra Enterprise Validated
EMEA	Budgetbox	SCANEO	Android	SCANEO is the latest generation of self-scanning software. It allows customer to scan their items during their shopping trip and go through the checkout without having to empty their trolley. SCANEO is able to display in real time all the promotions available or earned by the customer, as well as his shopping lists, personalized eCoupons, etc.	Retail	MC18	Zebra Enterprise Compatible
EMEA	Datema Mobility AB	PSS Shopping Client	CE	A shopping client for the PSS system (also branded EasyShop 2.0). PSS is a retail/store solution where customers scan the merchandise they want to procure.	Retail	MC18	Zebra Enterprise Compatible
EMEA	Datema Retail	Datema EasyShop 2.0	Android	The next generation shopping solution, giving you access to the latest benefits within Portable Shopping Systems (PSS), including information, discounts and offers directly at the shelf.	Retail	MC18	Enterprise Compatible
EMEA	Re-Vision BV	MyScan	CE	Selfscan solution for retail.	Retail	MC18	Zebra Enterprise Compatible
EMEA	S&T Services Polska sp. z o.o.	mSCAN	CE	mSCAN is a solution designed for various kinds of retailer networks enabling to improve efficiency of checkout system. Solution allows to increase effectiveness and speed of service of customers by either allowing clients to scan their baskets by themselves during shopping experience or by serving clients who are waiting at a till lane in a queue to the checkout, which is especially useful during shopping intensive periods. NA	Zebra Technologies	Enterprise Browser Demo	Android	Enterprise Browser is a powerful, next generation industrial browser enabling developers to build feature rich web applications that integrate seamlessly with the features in Zebra Technologies' Mobile computers and peripherals – such as barcode scanning, signature capture, printing and more. Enterprise Browser applications leverage standard web technologies (HTML5, CSS, and JavaScript) to run and integrate with virtually any Zebra devices. With support for legacy APIs used in PocketBrowser and RE Shared Runtime, Enterprise Browser is the ideal path forward for developers migrating legacy web based applications to newer devices or creating new highly-graphical applications. Enterprise Browser features will speed up your application development time, reducing costs and making the transition to next generation devices and operating systems fast, easy and affordable. Built from the ground up around best-in-class development practices and designed to support new operating systems and devices, Enterprise Browser is an entirely better way to create web based enterprise applications.	Cross-Industry	MC18, MC3200, MC40, MC67, MC9200, TC55, TC70, TC75	Zebra Enterprise Validated
NA	Zebra Technologies	Printer Setup	Android	An Easy Way to Configure Your Printers. The faster you get new equipment up and running, the more quickly you can achieve your return on investment. With Zebra's Android Printer Setup Utility, configuring your Link-OS printers to optimize performance is easy – no specialized knowledge required. Just download Zebra's Printer Setup Utility app on your Android mobile device and tap the printer you wish to configure. Your printer and device will instantly begin communicating via Bluetooth. Then follow the simple setup wizard that walks you through how to set specific printing parameters – such as calibration, media type, ribbon, printer language and security – to optimize performance. Bluetooth Printers Now Manageable – Even in the Field Traditionally, Bluetooth printers are not easily managed – particularly when the printers are used in the field by a mobile workforce.	Utilities	MC40, TC55, TC70, TC75, MC18, TC8000	Zebra Enterprise Compatible
NA	Zebra Technologies	TestConnect	Android	TestConnect is an app for demonstrating the PrintConnect app.	Utilities	MC18, MC40, TC55, TC70, TC75	Zebra Enterprise Compatible
