

# HELP TO IMPROVE PATIENT SAFETY, INCREASE PRODUCTIVITY AND MEET REGULATORY REQUIREMENTS, QUICKLY AND COST EFFECTIVELY, WITH ZEBRA TECHNOLOGIES

## ZEBRA TECHNOLOGIES FOR HEALTHCARE OEMS

Technology offers healthcare a world of opportunity to transform the patient experience, and today, Zebra's proven OEM solutions are helping healthcare professionals right across the world. With Zebra Technologies, OEMs operating in healthcare can help organizations to:

- **Access critical information in real-time**
- **Make more informed decisions**
- **Increase accuracy and enhance patient safety**
- **Better manage assets**
- **Improve overall efficiency**
- **Make a difference where every minute counts**

## YOUR OEM PARTNER IN HEALTHCARE

Zebra is the OEM partner that fully understands the demands faced by healthcare organizations. We can supply everything OEMs need to support their healthcare customers: from single-point products to fully integrated solutions that work together across an entire estate. Our expertise enables us to develop solutions around your or your customers' specific needs better than anyone else. The breadth and depth of innovation, engineering know-how and the experience we offer is why so many respected global brands trust Zebra to help them succeed.

## THE ZEBRA TECHNOLOGIES PORTFOLIO

Dedicated to your success, our portfolio of high-quality, high return-on-investment, industry-leading solutions is built on proven, scalable, embedded technologies that deliver benefits to healthcare, whether private label or custom engineered. We provide flexibility, mobility and intelligence solutions for OEMs through barcode scanning, RFID reading, mobile computing, kiosk and location technologies, and more.

### COMPLIANCE, SECURITY & INTEGRATION

Zebra Technologies creates solutions for OEMs working in healthcare sectors, with consideration for:

- **Regulatory requirements**
- **Security and data protection**
- **Accuracy**
- **Ease of use**
- **Seamless integration into healthcare information systems**

## LAUNCH COMPLIANT HEALTHCARE SOLUTIONS QUICKLY, RELIABLY AND COST EFFECTIVELY

No other company meets your or your customers' needs better than Zebra, by offering:

- A comprehensive ecosystem of solutions, ranging from components to private label finished products and custom product development.
- A product development perspective: not just a parts catalogue but a challenge-solving relationship that meets your customers' needs for healthcare technology at a competitive cost.
- Investment stability. Our 1700+ engineers develop new products annually and Zebra has more than 4,500 US and international patents issued and pending.
- A roadmap of our products for planning and support for our customers long after the sale
- Faster time to market, lower costs and regulatory compliance

## TRUSTED GLOBALLY

Trusted globally by leading medical device manufacturers and healthcare providers alike, we help to enable a patient-centric, integrated network approach to healthcare that improves patient safety and workflow.

With our OEM model, manufacturers turn to us to leverage industry-leading technology not core to their expertise, allowing them to focus on what they do best.

Together, we can improve the patient experience, streamline your customers' operational processes, and reduce overall healthcare delivery costs.
