

There's an easier way to migrate to Android

Move at your own pace with All-Touch Terminal Emulation.

Migrating to Android™ is simpler than you think. Out of the box, your Zebra devices come ready to ease the transition with All-Touch Terminal Emulation (TE). In just three simple steps, this powerful tool moves your existing TE apps from traditional green screens to a modern, touch-screen, user interface. What does that mean for your operations? Reduced training thanks to its graphic, intuitive UX. Bigger, on-screen buttons translate into less risk of errors. And fewer steps mean faster workflows. Plus, there's no development or coding needed—simplifying the entire process.

Don't Risk Playing it Safe. Migrate Now. **Here's Why ...**

 **E-COMMERCE IS SPIRALING**

\$4.5 trillion

online global retail sales by 2021

 **DELIVERY TIMES ARE SHRINKING**

78% of logistic firms

expect to offer same-day deliveries

 **LABOR IS SCARCE**

36% rate

of worker turnover

 **MICROSOFT IS ENDING SUPPORT**

6.5 by 2020

Windows® Embedded Handheld

7.0 by 2021

Windows Embedded Compact

You're three steps away from a better work experience.

Step 1: Migrate

Skip retraining workers

- ✓ Present existing telnet apps on Android
- ✓ Ease implementation
- ✓ Maintain industry standard protocols

Step 2: Optimize

Work at full speed

- ✓ Eliminate redundant tasks
- ✓ Automate processes
- ✓ Create contextual menus based on work
- ✓ Train workers in less time

Step 3: Modernize

Give your apps a user-friendly look and feel

- ✓ Expedite task and training speeds
- ✓ Highlight important on-screen data
- ✓ Minimize errors with visual cues
- ✓ Mix modernized and native screens

Make your transition to Android trouble-free.
