

VIDEO ON DEVICE APPLICATION

DEVICE SANITIZATION VIDEO

What is Video on Device?

Our learning services are targeted solutions designed specifically around driving user adoption.

Offering a quick, easy and effective way to optimize employee competence and performance, Zebra's VoD application helps accelerate user adoption of new technology, processes and features by putting training right at employees' fingertips.

The VoD Basic application in this offer runs on Zebra Android mobile computing devices and provides an educational video that instructs your associates on how to properly clean and disinfect their Zebra mobile device.

How to Order

- Contact your Zebra Account Manager for details if you are an existing customer.
- Contact us at learningservices@zebra.com if you are a new customer.
